ACTION REQUESTED BY THE SUPERINTENDENT:

That the School Board receive for its first reading and consideration the attached proposed Policy 7-51.3, Scoliosis Screening.

KEY POINTS:

The attached proposed Policy 7-51.3, Scoliosis Screening, is intended to address a recently added requirement of the Virginia Code that school divisions either provide information to parents concerning scoliosis or, in the alternative, that the division implement a scoliosis screening program. Stafford County Public Schools will conduct scoliosis screening through the school nurse. This year's Code of Conduct provides information to the parent and a form for the parent to return if it is preferred that the child's own physician undertake the screening.

SCHOOL BOARD GOAL: (Goal 3) Encourage parents and the community to increase their interest and involvement in schools.
